ABOUT US

Our company was set up in **1994** and started production of plastic bottles for **expanding pharma industry** in Poland. Within the last **20 years** we've gained a **great experience** in design and production of different bottles and caps for drugs which require **the highest purity and precision**.

TECHNOLOGY

- **over 10** blow and injection moulding machines with clamping power of **more than 1.000 tons**,
- machine park **able to produce more than 10 millions of bottles/month**
- our own CNC machines making it possible to **make moulds on demand**,
- over **20 years of experience and 10 skilled engineers** in the team.

WHERE DO WE SELL?

In **2015** we have introduced revolutionary e-liquid bottles which are now being supplied to companies **all over Europe** including **Poland, Germany and UK**.

? DID YOU KNOW?

We also ship worldwide, our bottles reach even **Madagascar and Hong Kong!**

MATERIAL INFORMATION

Each material used for bottle production has its pros and cons and every 10 ml bottle is available in each of them. We use only pharma-grade pure materials from European manufacturers.

PP MATERIAL

- ✓ semi-transparent
- ✓ resistant to aggressive liquids
- ✓ very easy to squeeze which most customers love

PET MATERIAL

- ✓ very clear and transparent
- ✓ high gloss
- ✓ resistant to aggressive liquids
- ✓ well-known material

LDPE MATERIAL

- ✓ resistant to aggressive liquids
- ✓ very easy to squeeze which most customers love

ADDITIONAL INFORMATION

It's possible to add colourings to each of these materials in order to make the bottles colorful from as few as 20.000 pcs.

Please contact us for further information.

TPD COMPLIANCE

All our bottles made of PP, PET and LDPE were tested against the requirements of EU Commission decision 2016/586 of 14th April 2016. Both bottles and nozzles fulfill the requirements described in Article 2(1)(a) and comply with those regulations.

Packed in boxes of 2500 pcs (PET) / 4000 pcs (PP).

nexeem

nexeem

20ml and 30ml bottles

OUR BOTTLES | 20ML

Bottles are available with our standard integrated caps in PET, PP or LDPE.

Packed in boxes of 1500 pcs.

AVAILABLE COLORS:

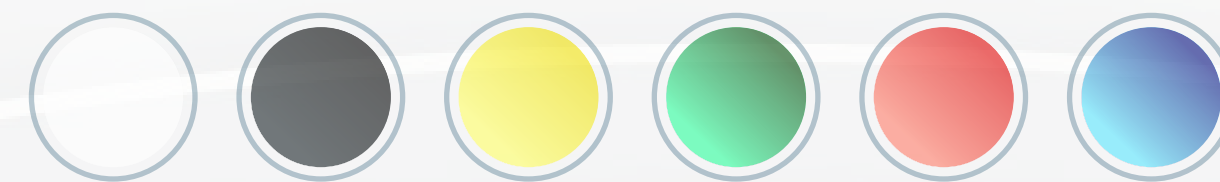

OUR BOTTLES | 30ML

Both bottles use automatic dropper cap and are available only in PP and LDPE due to its high softness.

Packed in boxes of 750 pcs.

AVAILABLE COLORS:

OUR BOTTLE CAPS & DROPPERS

Childproof and tamper-evident caps (ISO 8317 declaration) with dropper inside which is automatically put on while twisting. Allows you to save money and time and shorten the production line with the step of putting on the dropper. The caps are available with dropper separately on request.

Caps are packed in boxes of 5.000 pcs.

Caps' and safety rings' colours may be mixed together in order to create distinctive combination for given brand. Minimum order quantity for mixes and new colours is 20.000 pcs

Droppers are made of LDPE and fit securely on the bottle once the cap was twisted onto it. Droppers in given colours are available from as few as 20.000 pcs.

CLIENT'S REVIEWS

"Nexeem have been fantastic to work with over the last few years. From placing orders, to delivery day we have received excellent service every time.

Reliable, honest suppliers with a quality service and product. Kamil and the team never let us down. We're looking forward to working with them for the years to come."

Jon Outram, Vape Shoreditch UK

"These guys really know what they're doing! They've helped us out number of times and delivered bottles from Poland to UK in 48 hours after receiving an order.

We couldn't have wished for a better supplier."

Craig Midgley, Vapemate UK
